

CARRON
P H O E N I X

2009/10 DEVELOPER RANGE

Sinks, Taps & Accessories

CARRON
P H O E N I X

A little about Carron Phoenix

The Carron Company was founded in 1759 and was famed for production of 'Carronade' cannons used in the Napoleonic wars. The company later turned its manufacturing expertise to the production of the famous red telephone boxes which can still be found throughout the UK.

Sink production commenced in the early 1960's and Carron is now the largest dedicated manufacturer of kitchen sinks in the UK.

The Developer Range

With its extensive knowledge of the UK kitchen industry, Carron Phoenix has brought together a range of products tailored specifically for builders, developers and the social housing sector.

Business Standards

We conform to a range of industry standards including:
ISO 9001:2000 in Quality for our manufacturing excellence.
ISO 14001:2004 for our commitment to the Environment
OHSAS 18001:1999 covering the Health and Safety of our workforce.

Product Standards

All of our sinks are certified to BS EN13310:2003 and are CE marked accordingly. All of our Developer Range taps are WRAS approved.

Guarantee

We are so confident in the quality of our sinks, that each one carries a lifetime guarantee. Carron Phoenix taps and accessories carry a two year manufacturers guarantee. This is in addition to, and does not affect your statutory rights.

CARRON 1244 HEAVY DUTY

Our 1244 Heavy Duty range is still manufactured to the stringent quality standards of the former BS kitemark. BS 1244 has been superseded by a less rigorous EuroNorm (EN) but we see no reason to lower our product specification. In recent years the requirement from the social housing sector has shifted away from sit-on sinks to our popular 2-taphole inset (ISDT). With increasing demand for monobloc taps, Carron Phoenix has also launched the single taphole ISD and variants of our Precision range, which meet the criteria specified in the former British Standard BS 1244.

WASTE DISPOSAL UNITS

With the environment in mind, we have a range of waste management solutions that can help dispose of waste in a highly efficient and eco-friendly way. Installing our waste disposal units and waste sorter bins helps to reduce the amount of household waste going to landfill.

CARRONADE WD500

A compact model suitable for light use, food waste is continuously fed into the disposer as it operates. On/off control is operated by a separate air switch which is supplied.

Eight year warranty

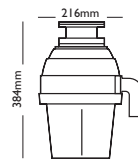

Motor – 1/2 horsepower.
 Motor speed – 2600rpm.
 Voltage – 220-240v, 50Hz.
 Watts – 490w.
 Motor Type – Permanent Magnetic.
 Air Switch – Included.
 Warranty – 8 years.

CARRONADE WD700

Our mid-range model, suitable for medium use. Food is continuously fed into the disposer as it operates. On/off control is operated by a separate air switch which is supplied.

Ten year warranty

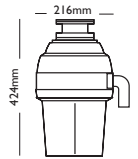

Motor – 3/4 horsepower.
 Motor speed – 2700rpm.
 Voltage – 220-240v, 50Hz.
 Watts – 520w.
 Motor Type – Permanent Magnetic.
 Air Switch – Included.
 Warranty – 10 years.

CARRONADE WDI000

High power model suitable for heavy use, food waste is continuously fed into the disposer as it operates. On/off control is operated by a separate air switch which is supplied.

Lifetime warranty

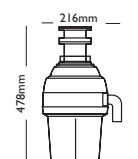

Motor – 1 horsepower.
 Motor speed – 2800rpm.
 Voltage – 220-240v, 50Hz.
 Watts – 550w.
 Motor Type – Permanent Magnetic.
 Air Switch – Included.
 Warranty – Lifetime.

CARRONADE WDI500

High power model suitable for heavy use, this model has a batch feed operation, allowing food waste to be processed one batch at a time. On/off control is operated via the specially designed sink stopper.

Ten year warranty

Motor – 1 horsepower.
 Motor speed – 2800rpm.
 Voltage – 220-240v, 50Hz.
 Watts – 550w.
 Motor Type – Permanent Magnetic.
 Batch Feed Operation.
 Warranty – 10 years.

WASTE SORTER BINS

Our new range waste sorters has been designed to satisfy all of the internal waste storage requirements outlined in the new Code for Sustainable Homes (CSH). Each sorter model qualifies for either 2 or 4 credits, depending on the local authority collection scheme.

LINEA 130

A large single 30 litre bin encased in a slim unit allowing it to be fitted to a 300mm cabinet. Linea 130 is suitable for light use, has a manual pull out operation and is very easily installed.

Warranty – 2 years

1 x 30L bin

4 CSH credits – where local authority separates waste after collection

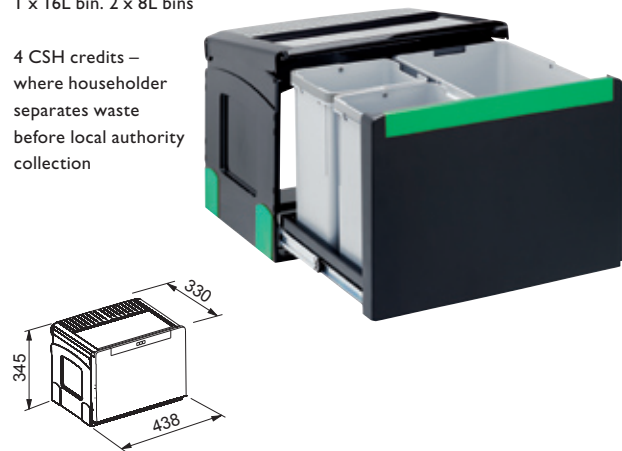

LINEA 332

A triple bin configuration totalling 32 litres, Linea 332 has a low front to back profile, fitting a 600mm cabinet and allowing it to nestle tidily under your sink space. Suitable for separating household waste, this unit has a manual pull out operation, and is easily installed.

Warranty – 2 years

1 x 16L bin. 2 x 8L bins

4 CSH credits – where householder separates waste before local authority collection

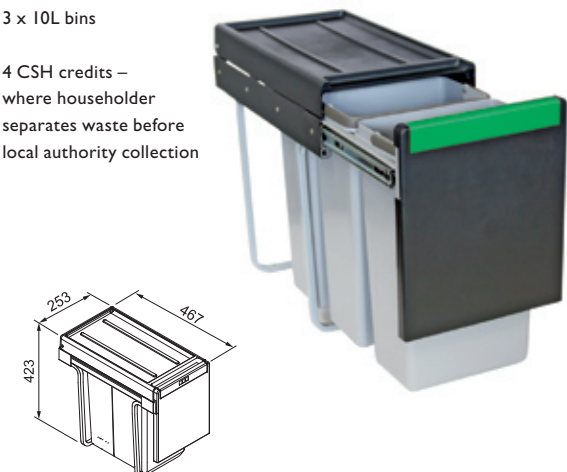

LINEA 330

Triple bin configuration totalling 30 litres, Linea 330 is a slim unit which will fit into a 300mm cabinet. Suitable for separating light household waste, this unit has a manual pull out operation and is easily installed.

Warranty – 2 years

3 x 10L bins

4 CSH credits – where householder separates waste before local authority collection

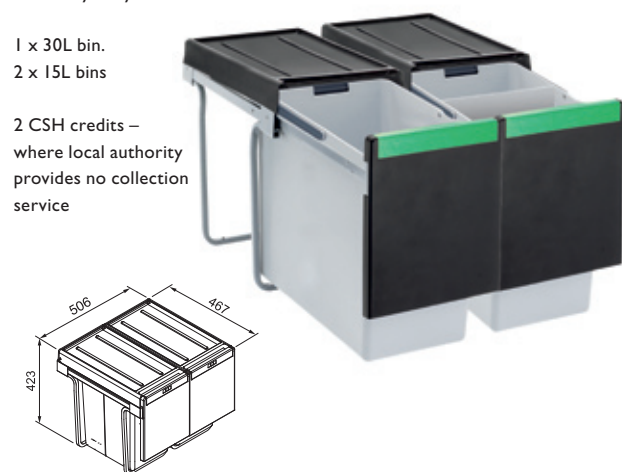

LINEA 360

A triple bin configuration totalling 60 litres, Linea 360 has a low front to back profile allowing it to be installed neatly under your sink space and to fit a 600mm cabinet. Linea 360 is suitable for separating household waste, has a manual pull out operation and is easily installed.

Warranty – 2 years

1 x 30L bin.
2 x 15L bins

2 CSH credits – where local authority provides no collection service

Chrome

OSPREY

OPUS

OPUS

Opus is a lever controlled tap that bears simple geometric shapes and strong lines, making it one of our most popular choices.

Chrome (shown)
Brushed Nickel

RENO

RENO

With its slim cylindrical body and sleek straight lines, Reno oozes modernity and the single lever and directional spout make this tap a highly practical choice.

Chrome
Brushed Nickel (shown)

DANTE FILTER

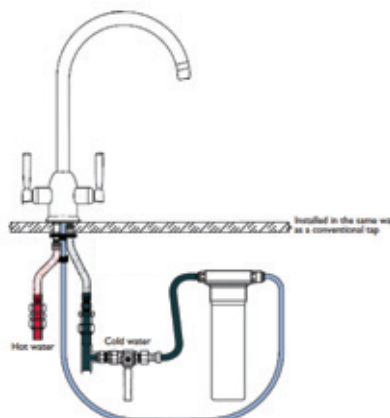

Dante is available with a choice of two filters.

Limescale filter system

(for hard water areas). Reduces limescale, improves water taste and odour, and reduces sediment.

Bacteriological filter system

Extra protection against cysts, lead, benzene, toxaphene, dichlorobenzene. Improves water taste and odour, and reduces sediment.

DANTE FILTER

The Dante filter tap provides excellent filtration at an affordable price. The cold water handle operates in two directions – pull forward for mains water, push backwards for pure filtered water.

Chrome (shown)
Brushed Nickel

ECO TAPS

An integral part of the Code for Sustainable Homes (CSH), is the water calculator and for this purpose, we have specifically manufactured a range of regulated taps.

eLIO

eLIO is a traditional two lever tap with an ergonomic design, which has been designed specifically to conform to the Code for Sustainable Homes (CSH) and is regulated to 4 litres per minute at 3 bar. eLIO is Code Level 3 Approved.

Chrome

eLIO

Code Level 3 Approved.

eNYA

eNYA is a slim and low profile tap, which has been designed specifically to conform to the Code for Sustainable Homes (CSH) and is regulated to 4 litres per minute at 3 bar. eNYA is Code Level 3 Approved.

Chrome

eNYA

Code Level 3 Approved.

eLIX

eLIX is a low profile tap, which has been designed specifically to conform to the Code for Sustainable Homes (CSH) and is regulated to 5 litres per minute at 3 bar. eLIX has a click valve flow regulator meaning its flow rate can be taken as the maximum flow rate of the lower range before the water break.
